

# Australian Fiber Optic Distribution Frame Manufacturer

## AI Overview

Leading Australian manufacturers of fiber optic distribution frames include Norden, Fibre Systems, Fibre Optic Systems (FOS), and Codecom, offering high-density, custom, and mission-critical solutions.

### Key Manufacturers

Norden Norden is a prominent Australian manufacturer and supplier of high-density floor-standing fiber optic distribution frames, providing quality products for enterprise, telecom, and industrial networks. Their frames are designed for robust performance and scalability, ensuring reliable connectivity in demanding environments . Fibre Systems Fibre Systems specializes in custom, high-survivability fiber optic solutions for defence, mining, industrial, and broadcasting applications. They manufacture all products in-house in Australia, offering bespoke assemblies, rapid deployment systems, and ruggedized frames capable of withstanding extreme temperatures, vibration, chemical exposure, and mechanical stress . Fibre Optic Systems (FOS) Headquartered in Knoxfield, Melbourne, FOS has over 25 years of experience in manufacturing and distributing fiber optic and copper solutions. They provide tailored optical distribution frames, rapid production, and fast turnaround from design to delivery. FOS emphasizes innovation, quality, and client-specific solutions for enterprise and telecom networks . Codecom Codecom is a family-run, design-led company founded in 2006, producing high-density, low-loss fiber solutions for data centers, AI facilities, telecom, and enterprise networks. They focus on custom fiber systems designed for speed, scalability, and long-term performance, making them a trusted supplier for critical infrastructure projects .
