

Company with 1d1 optical modules

AI Overview

Zhongji Innolight, Eoptolink, Accelink Technologies, and O-Net Technology are leading companies likely offering 1D1 optical modules for high-speed data communication.

Key Manufacturers

Zhongji Innolight Co., Ltd. is a global leader in high-end optical communication transceiver modules, providing solutions for cloud data centers, telecom networks, and backbone infrastructure. Their product range includes 100G, 200G, 400G, and 800G optical modules, which likely encompass 1D1 configurations for single-channel applications, along with integrated R&D, design, packaging, and testing capabilities . Chengdu Eoptolink Communication Technology Co., Ltd. specializes in high-performance optical modules and devices for ICT industries, including data centers, FTTx, LTE, and 4G/5G networks. Eoptolink offers a wide variety of optical transceivers and passive optical devices, making them a potential supplier of 1D1 modules . Accelink Technologies develops and mass-produces optical components and modules, including PLC, FP, DFB, EML, and VCSEL-based solutions. Their vertically integrated capabilities from chips to modules allow them to provide flexible 1D1 optical module solutions for telecom and data center applications . O-Net Technology, founded in 2000, is another established optical module manufacturer with a broad portfolio of transceivers and integrated optical solutions suitable for single-channel (1D1) and multi-channel applications .
