

Construction site control cabinet distribution box

Overview

An electrical distribution cabinet or site cabinet centralizes and protects the power supply on a construction site or industrial installation. The robust sheet steel housing has been developed especially for use outdoors and is extremely stable thanks to high material thicknesses. ENERGYBOX is a complete range of Assemblies for Construction Sites (ACS) pre-wired boards that can be wall-mounted or installed on a support. We cover everything from the processing of standard enclosures to your individual special enclosure. We're also happy to carry out the electrical function test, prepare your cabinets in the appropriate export. We design all kinds of control cabinets for you: from small distribution boards and terminal boxes to connection and individual boxes to extensive series cabinets and, of course, control panels.
