

Delivery date for SFP active optical fiber equipment in Indonesia

AI Overview

SFP active optical fiber equipment in Indonesia can typically be delivered within the same day to a few days, depending on the seller, courier, and location.

Online Marketplace Options

- Shopee Indonesia offers SFP+ 10G Active Optical Cables (AOC) with options for free shipping, COD, and instant courier services, which can result in delivery within 1–3 days for major cities like Jakarta, Surabaya, or Bandung .
- Tokopedia lists SFP modules and active optical cables with kurir instan (instant courier) and same-day delivery options for certain areas, along with promotions like free shipping and 0% installment plans . These platforms allow buyers to check estimated delivery times at checkout based on their specific address and chosen courier.

Local Manufacturer Supply

LumoWave Optical Technology Co., Ltd., a local manufacturer in Indonesia, produces high-reliability 10G/16G SFP+ modules optimized for tropical conditions and high-density deployments . For bulk orders or specialized modules, delivery times may vary depending on stock availability, order size, and shipping logistics, but local production generally reduces lead time compared to imports.

Factors Affecting Delivery

- Location: Major urban centers usually receive shipments faster than remote areas like Papua or Kalimantan.
