

# Dustproof fiber optic coupler price

## AI Overview

Dustproof fiber optic couplers typically range from under \$0.10 per unit for standard high-volume SC adapters to \$5–15 per unit for IP68-rated LC or specialized couplers.

### Price Overview

- Standard SC/APC dustproof couplers: High-volume OEM prices can be below \$0.10 per unit, especially for simplex or duplex adapters, though advanced features like IP68 waterproofing can increase the cost by 15–30% .
- LC duplex or LC to LC dustproof couplers: Retail options, such as the PENGLIN IP68-rated LC couplers, are priced around \$5–15 for a 2-pack, depending on the supplier and specifications .
- Specialized or hybrid couplers: Couplers that convert between connector types (e.g., SC to DIN or E2000) or include tool-less designs may command higher prices due to added durability, ease of installation, and niche applications .

### Factors Affecting Price

- Connector Type: SC, LC, E2000, MTP/MPO, and ST connectors vary in cost, with compact or high-density connectors like LC generally more expensive.
- Dustproof/Waterproof Rating: IP67 or IP68 ratings for outdoor or harsh environments increase material and manufacturing costs.
- Material and Build Quality: Ceramic sleeves, nylon PA66 shells, and UV/flame-resistant coatings improve durability but raise unit price .
- Volume and Supplier: Bulk orders from OEMs or Chinese manufacturing hubs can significantly reduce per-unit cost, while retail or small-quantity purchases are higher.
