

Mounted Wall-Mounted Distribution Box

Overview

A wall-mounted distribution box is an electrical structure that is attached directly to a vertical surface. It usually holds control devices, 600V DC circuit breakers, and contactors. Learn their key differences, uses, pros & cons to choose the right one for your space and needs. Whether you're planning for a home. SMART DISTRIBUTION BOXES FOR FLEXIBLE BUILDINGS. Wieland is your experienced and reliable partner for efficient, pluggable and decentralized electrical installation. Made from solid rubber, a material that offers excellent weather-, UV- and ozone-resistance, a high degree of energy absorbent damping, good resistance to acids. When installing a wall socket, it's essential to have a compatible wall-mounted box with the simplest connection possible. 2mm thick steel and painted in RAL 7035 gray. 130x50mm perforation for the passage of cables. Cover with rubber gasket is supplied.
