

New Zealand Protective Cable Tray Prices

AI Overview

Cable tray prices in New Zealand vary by type, material, and size, ranging from around NZD 20 for small desk trays to several hundred dollars for industrial-grade metal trays.

Overview of Cable Tray Types and Pricing

1. Wire Mesh and Basket Trays Wire mesh or basket cable trays are lightweight, ventilated, and suitable for heavy cable loads. They provide excellent airflow and easy maintenance. Prices for industrial-grade wire mesh trays typically start from NZD 100–200 per meter, depending on material (steel, stainless steel, or galvanized) and load capacity . 2. Ladder Trays Ladder-style trays are designed for heavy-duty applications, offering strong support and ventilation. These are commonly used in commercial buildings, data centers, and industrial installations. Prices generally range from NZD 150–400 per meter, with stainless steel or powder-coated options costing more . 3. Trough and Single Rail Trays Trough trays provide maximum protection against dust and EMI, while single rail trays are used for lighter loads or aesthetic installations. Trough trays can cost NZD 200–350 per meter, whereas single rail trays are more affordable at NZD 50–100 per meter . 4. Small Desk or DIY Trays For home or office use, simple cable management trays like the CordTech 2-pack from Bunnings or Mitre 10 are available. These trays are designed to conceal cables under desks and are priced around NZD 20–40 per pack .
