

Price of a complete power and lighting distribution box

AI Overview

The price of a Power Lighting Distribution Box typically ranges from \$50 to several hundred dollars per unit, depending on specifications, materials, and order volume.

Pricing Overview

The cost of a lighting distribution box varies widely based on several factors:

- **Material and Construction:** Boxes can be made from galvanized steel, iron, stainless steel, or PC plastic. Higher-quality materials and weatherproof or IP-rated enclosures increase the price .
- **Rated Current and Breaking Capacity:** Standard boxes may support currents up to 80A, with breaking capacities ranging from 6kA to 36kA. Higher ratings generally cost more .
- **Voltage and Phase:** Single-phase boxes for residential use are usually cheaper than three-phase boxes designed for commercial or industrial applications .
- **Customization and OEM Options:** Custom busbar configurations, top cable entry modifications, and branding can increase the unit price. Wholesale orders often reduce per-unit costs .
- **Market Trends:** The global lighting distribution box market is growing, driven by smart city initiatives and energy-efficient lighting, which may influence pricing over time .
