

Telecommunications fiber optic cable route accessories

Overview

Fiber optic accessories refer to various components and devices used in fiber optic communication systems to ensure efficient and reliable transmission of data through optical fibers. These adapters enable secure and effective connections between various devices. From 6 cables to 48 cables, With SC, ST, FC, LC, MTRJ. AFL - Fiber optic cable, transmission and substation accessories, outside plant equipment, connectors, fusion splicers, test and inspection equipment. All products are built to stringent industry standards for low optical. CommScope features a family of tools and components for the installation, repair and maintenance of fiber cables, including prep and termination kits. Make installing and maintaining your fiber cables quick and easy with our pulling eye hooks, lc sc st cleaners, smf mmf couplers and adapters.
