

Wuwei Fireproof Cable Tray Price

AI Overview

The price of Wuwei fireproof cable trays varies widely depending on material, size, fire rating, and supplier, typically ranging from \$20 to \$150 per meter for standard industrial models.

Factors Affecting Price

Material Type: Fireproof cable trays are made from carbon steel, stainless steel (304 or 316), aluminum, or fiberglass-reinforced polymer (FRP). Steel trays are strong and suitable for heavy loads, while FRP trays resist corrosion and are non-conductive. Aluminum offers a lightweight, corrosion-resistant option. Material choice significantly impacts cost, with stainless steel and FRP generally being more expensive than carbon steel or aluminum .

Fire Rating: Trays are rated to maintain circuit integrity during fire for durations typically ranging from 30 minutes to 2 hours. Higher fire ratings or compliance with standards like UL 1724, BS 476, or EN 1363 can increase the price .

Design and Size: Ladder, perforated, or wire mesh designs affect both material usage and ventilation efficiency. Wider trays or those with thicker gauge steel cost more. Custom lengths or widths also influence pricing .

Supplier and Location: Prices vary by manufacturer and region. Suppliers in China, including Wuwei-based manufacturers, may offer competitive wholesale rates, especially for bulk orders. Factory-direct purchases often reduce costs compared to trading companies .

Typical Price Ranges

- Carbon Steel Ladder Tray: \$20-\$50 per meter
- Aluminum Tray: \$30-\$70 per meter
